

## 30 DAYS OF CODE (Frontend)

### DAY 14:Clipboard landing page

#### Description:

Your challenge is to build out this landing page and get it looking as close to the design as possible.

You can use any tools you like to help you complete the challenge. So if you've got something you'd like to practice, feel free to give it a go.

Your users should be able to:

- View the optimal layout for the site depending on their device's screen size

- See hover states for all interactive elements on the page

- Download the starter code and go through the README.md file. This will provide further details about the project. The style-guide.md file is where you'll find colors, fonts, etc.
