30 DAYS OF CODE (Frontend)

DAY 13:Project tracking intro component

Description:

Your challenge is to build out this intro component and get it looking as close to the design as possible.

You can use any tools you like to help you complete the challenge. So if you've got something you'd like to practice, feel free to give it a go.

Your users should be able to:

View the optimal layout for the site depending on their device's screen size

See hover states for all interactive elements on the page

Create the background shape using code

Download the starter code and go through the README.md file. This will provide further details about the project. The style-guide.md file is where you'll find colors, fonts, etc.
